HMO475

Headrest Mounting Hardware

STL-OTSM250

Contoured Headrest Pad

MOUNTING

1" BALL

CP-RING

1" Mounting Ring

1" BALL MOUNT

MOUNTING:

The Otto-Bock Contoured Headrest attaches to a 1" ball mount via a CP-Ring. When you have the mounting ring in place, screw it into the adjacent holes on the headrest mount. Be sure the mounting hardware uses the standard 1" ball.

PRODUCT DESCRIPTION

Whether used as a stand alone head support or as part of a larger system, the Stealth contoured headrest provides multiple levels of options for switch sites, lateral facial devices, attachment hardware and more... The Otto-Bock series molded headrests are ergonomically formed and valued for their robust performance and economical price. The Otto-Bock Series offers two options, a large and a small occipital head support.

TECHNICAL DATA

- 5/32 tool for socket-head and flat-head screws on mounting ring and mounting hardware.
- Includes: ball mounting ring and headrest pad.
- Headrest attaches to: HMO400, HMO475, TWB480-1, TWB480-FDM, and TWB485-1.

SELLING POINTS

- The ergonomic design of the headrest pad provides great support for the head.
- The Otto-Bock provides robust performance at a low price.
- The exterior of the headrest is water resistant and easy to clean.
- Compatibility with all of our standard mounting hardware.
- Ball mount allows for angle and rotational adjustment.

BUILD YOUR OTTO-BOCK

STEP 1: PAD SIZE

The Otto-Bock comes in two pad sizes that both include a metal base layer, covered with closed cell foam and are coated with a durable rubber exterior.
(See Headrest Pads on back)

STL-OTSM250 – STL-OTLG150

STEP 2: SWING-AWAYS (OTTOS9 SERIES)

Facial lateral Swing-Aways for pads, switches, speaker sites and chin control devices can be added to the Otto-Bock headrest.
(See Swing-Away Options on back)

STEP 3: HARDWARE

The final step is deciding what type of hardware to use for mounting the Otto-Bock headrest to your chair.
(See Hardware Options on back)

HARDWARE

- HMO400
- HMO475
- TWB480
- TWB480-FDM
- TWB485

More information available at www.stealthproducts.com

HARDWARE OPTIONS

HMO400

The HMO400 is our straight mounting hardware can be adjusted fore and aft.

HMO475

The HMO475 allows fore and aft adjustment as well as rotational adjustment

TWB480-1

The TWB480 has a rotating triangle and links that can be adjusted to any position.

TWB485-1

The TWB485 combines the links of the TWB480 and curved bar of the HMO475.

TWB480-FDM

An easy transfer flip down mount and links make Stealth's TWB480-FDM.

TD101

The Tone Deflector is design to absorb quick impact and aver slanted angle loading.
